

TRƯƠNG CÔNG HIẾU

FULL STACK DEVELOPER

0948041022 | conghieuzc112@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

I am a Software Engineer with hands-on experience building reliable, scalable applications, focused on delivering practical solutions and confident in both Software Engineer and Mobile Developer roles, with an emphasis on performance, clean architecture, and real-world problem solving.

EDUCATION

VTC ACADEMY - Da Nang : 09/2022 - 12/2025

Major : Software Engineering

SKILLS

Frontend: JavaScript, TypeScript, React Native, Next.js, TailwindCSS

Backend: Node.js, .NET, MongoDB, MySQL

Tools & Platforms: Git, Docker, Vercel, Render, Postman, Draw.io

Soft Skills: AI Tools Proficiency, System Design, Git Workflow, Teamwork & Collaboration

CERTIFICATE

Certificate of Recognition – Fastdo (2026).

EXPERIENCE

Fastdo - Mobile Developer

Jan 2026 - April 2026

- Participated in building backend systems using .NET / RESTful APIs
- Participated in developing application interfaces with React Native
- Reported daily work progress and handled requests from direct managers
- Worked with the team to maintain systems and proposed optimization solutions for software/systems

PROJECTS

CRM Customer For Sales (Personal)

Technologies: Next.js, TypeScript, TailwindCSS, Pub/Sub Google, .NET, MongoDB

- Integrated Gmail & Google Calendar via OAuth 2.0; auto-syncs emails and meetings into Customer Timeline with "Auto · Gmail / Calendar" badges — no manual logging needed
- Built Firebase realtime notification system — deal assignments instantly update bell badge via Realtime Listener
- Implemented Kanban board (dnd-kit) with Firestore realtime sync; deal stage changes broadcast instantly to all users without page refresh
- Structured codebase with Layered Architecture and SOLID on backend; MVVM + service classes on frontend; used DevTools to eliminate unnecessary re-renders and optimize API calls
